DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-10,17,25-27,29-39 are rejected under 35 U.S.C. 102(b) as being anticipated by Kamiya'301 or Laurent article.

See Kamiya'301 column 2, lines 57-68, column 3, lines 1-15, column 3, lines 49-55, column 7, lines 55-68, column 8, lines 65-68 and figures.

See the whole Laurent article.

The amendments and remarks filed by applicants in their last response have been fully considered. The arguments have not been persuasive. The limitation that particle is “generally spherical” is believed to be inherently disclosed in the applied prior art. The examiner believes that the rejections are still proper and are maintained.
